J. W. Records, of Estancia, master mechanic of the Santa Fe Central, was in Santa Fe Friday on business and returned home Saturday morning.

J. I. Rensdy, the agent for the Santa Fe Central at Estancia, is taking a vacation of a month. J. P. Creny, of Denver, is officiating during his absence.

W. R. Brown, division freight and passenger agent of the Santa Fe, who was here last Saturday attending to the Wholesale Grocers' association meeting, has returned to El Paso.

The Lordburg Liberator says: L. H. Warriner, the regular postal clerk on the Clifton & Lordburg run, who went back to his old home in Illinois, to vote, writes that his wife is in a railroad accident, and his wife is prostrated over the accident. He expects to start for Lordburg after voting, but writes that he will stay until his wife has recovered.

The Northern Texas Construction company has been organized for the purpose of building 150 miles of railroad in the western part of Texas. The main line is projected to run from Amarillo to San Antonio, 450 miles, with a branch line from Amarillo to El Paso, 300 miles. C. L. Townbridge, Chicago, is named as the promoter.

Last Wednesday, Nov. 9, J. W. Records, the popular master mechanic of the Santa Fe Central, had a birthday anniversary, and his good wife invited a number of his friends to his home in Estancia to help him celebrate the event. From what The Citizen can learn, the affair was one of the nicest ever held in Estancia, and everybody present had a fine time.

Steel postal cars are already being built by a responsible company in Pittsburg, and their general adoption by railroads would be welcomed by the clerks in the railway mail service, whose wooden cars occupy places in passenger trains, rendering them peculiarly subject to being ground up in collisions. It is the purpose of the company to extend its altered construction to baggage and then to passenger cars.

Work has been begun on the construction of two big steel bridges over the Neosho and Cottonwood rivers between Wiggins and Neosho Rapids near Emporia, Kan., by the Santa Fe railroad. The two bridges are necessary on account of the building of the small piece of second track which is to be put in at once to connect Neosho Rapids and Wiggins, and thereby complete the double track between Emporia and Keaton, a distance of fifteen miles.

The Rock Island route is expected to put on the Golden State Limited in the near future. This train will be a through tourist train from Chicago to the Pacific coast and General Manager S. B. Grimshaw, of the Santa Fe Central, will take steps to arrange a side trip from Torrance to Santa Fe at a low rate to give tourists an opportunity to view the beautiful and historic sights of Santa Fe. If convenient plans for such can be made with the officials of the Rock Island.

(From Tuesday's Daily Citizen.) The Santa Fe Hospital grounds at Needles are being much improved.

The Grand Trunk Railroad is to install a third-rail system in the Canada tunnel to do away with the smoke of the engines and lessen the danger.

The Pennsylvania Railroad company evidently expects a continuation of prosperity. It has just ordered \$2,000,000 worth of new freight cars.

The Chicago Inter-Ocean, commenting on the fact that 4,600 miles of railway will be constructed in 1904, said the addition is needed because this is a great country.

The Santa Fe Railway is keeping up with the times. Bulletin of election returns were furnished by this road on the California trains. The bulletins were received over the company's own telegraph lines and were posted from 6 o'clock in the evening until after midnight.

T. M. McVickers, formerly with the Lake Shore and Michigan Southern railway, has arrived at San Bernardino with his family, to assume the position of machine shop foreman, to succeed John Phillips, who was recently promoted to the general foremanship at Albuquerque.

The Mexican government has granted to A. J. Peyton an extension of time for the construction of two railroads—one from Tijuana to Ariz. in the western part of the state of Michoacan. The other line is known as the Tijuana railroad. Both lines are to run through a country productive of much mineral wealth.

A woman was the cause of it all. Train No. 8 left Albuquerque last evening minus one Pullman car conductor, he of the flowing light overcoat. He took dinner at the Emporia in the guise of a stall with a lady with blonde hair. Time passed all too quickly, for when dinner was over and the depot was reached the train was gone to the north, a red

bullet blinding the very much
